RE: Successful Completion of 3-D Secure Vendor Compliance Testing

This letter acknowledges that /n software has successfully completed all the necessary requirements of the 3-D Secure Vendor Compliance Testing Program for the 3-D Secure protocol **Version 1.0.2**, and is specific to /n software product as listed below:

Product Name: IP*Works! CC

Product Version: 5.0

3-D Secure Component Version (if any): MPI 1.0.2

Visa retains the right to require vendor to re-submit their product for additional compliance testing in the event that further test scenarios are enhanced.

This letter confirms that /n software product listed above is compliant with the 3-D Secure protocol **Version 1.0.2**. With this compliance notice, Visa does not endorse your product nor do we represent or imply that the above mentioned vendor product is interoperable with all other compliant 3-D Secure components that may have been developed.

You may be required to submit the above mentioned product for further interoperability testing when deemed necessary by Visa.

Thank you for your support for the Visa Authenticated Payment program. We look forward to market place adoption of 3-D Secure and wish you success in your product offering.

Kind regards,

Benny H. Wong
Senior Vice President
